

Cordless Phone Headsets

Sound quality for cordless phones.

Be hands-free at home.

Today, more and more people are working from home. Busy and noisy home environments are driving headset use for hands-free and noise-free conversations. Plantronics offers a family of headsets designed specifically for use with cordless phones. Each headset features a microphone adjust switch so callers can hear the speaker loudly and clearly.

This headset family offers a variety of wearing styles and features designed to fit individual needs and budgets. All include the comfort and quality sound expected from Plantronics—the company whose headset was relied on for the first words on the moon.

M210C and M214C

M220C
